Golden Age Care

At Golden Age Care, all Residents will be encouraged to be in control of all aspects that involve their lives, whatever needs they have. The staff works with each individual client to improve quality of life. Residents are also involved in many decision-making processes in the Home, such as: choosing the decor for their own rooms and public areas of the home, selection of furnishings, planning menus and activities.

We believe it is important that residents have their independence promoted, their dignity upheld, their privacy respected, and a right to voice opinions and make decisions for themselves according to the best of their abilities. Assistance will be provided as needed.

It is possible to age with grace, dignity and purpose. Elders quickly begin to regain their health when they have a reason to do so. It is our blessing to supply that reason.

Whether you are looking to transfer someone already in care, or are investigating homes in preparation for a coming need, we believe you will agree, "We really are a Home with a difference".

Our Services

At Golden Age Care, we'll do the work for you so you may enjoy a lifestyle free of tedious chores. The main focus of the staff is to provide a relaxed retirement for our residents. Among the many services and amenities we offer are:

- ✓ housekeeping,
- ✓ laundry and linen services
- ✓ cooking and providing balanced nutritious meals
- ✓ private furnished rooms
- ✓ cable television
- ✓ emergency call systems and intercoms
- ✓ garden with park-like setting and outdoor furniture
- ✓ medication monitoring

**Golden Age Care Home is owned and managed by a Registered Nurse.*
